

# Membership at a Glance

The International Society of Explosives Engineers was founded in 1974 with the clear goal to push the explosives industry forward while becoming a champion to the blaster in the field. Our mission is just a few simple words but couldn't be more complex: "To enhance the safety, science, skill and benefits of explosives engineering, worldwide."

## Member Benefits

### Training and Retraining Hours

- Training and certificate programs providing certification and re-certification hours.
- ISEE Webinars providing specific, real-world training and examples you can apply to your work.
- 16 hours of training, two-days of first-time presented papers, product demonstrations, and over 100 exhibitors during the ISEE Annual Conference.
- ISEE Chapters providing unique training and educational opportunities including conferences with education, exhibits, and sessions.

### Attend and Engage

- Increase your professional network by attending the ISEE Conference and ISEE Chapter Meetings.
- Deepen your connections and build a bench of professionals who can help you on your job.
- Share your expertise with those entering the industry and those from other countries.
- Connect with thousands of industry peers from around the world.

### Exclusive Access to Resources

- Membership includes access to OneMine®, a database containing hundreds of thousands of papers, articles, and information on subjects specific to our industry.
- The Journal of Explosives Engineering showcases case studies, new blasting techniques and technologies, and industry updates.
- ISEE Committees and Sections – where topics and solutions are discussed, white papers are created, and standards and recommendations are developed.

### Membership Discounts

- Members get preferred pricing on our products including:
  - The ISEE Blasters' Handbook. Recognized in our industry and written by ISEE Members.
  - ISEE Webinars, ISEE Certificate Program, and wide array of publications.
  - ISEE Blaster's Weekend and the Annual Conference.

ISEE community?**

**Open the camera on your phone & scan the  
QR code to apply today!**

**To learn more about membership visit ISEE's website  
[www.isee.org](http://www.isee.org) or email [isee@isee.org](mailto:isee@isee.org).**

## Membership Levels

### Full Membership \$115

- Full Membership is defined as any individual who is presently engaged in or has been engaged in explosives engineering.
- A member in good standing has the privilege of holding elective office, voting for officers and directors, and voting on changes to the Constitution.

### Associate Membership \$150

- Associate Membership is defined as an individual who is interested in explosive engineering, but who is not qualified to be a full member.
- An Associate Member has all the privileges of a Full Member except they cannot serve as an officer of the society or vote on changes to the Constitution.

### Corporate Membership \$595

- Corporate Membership is granted to organizations rather than to individuals. The Corporate Membership entitles the organization to a maximum of three (3) votes and a maximum of three (3) seats at the Annual Membership Meeting.
- Corporate members as individuals have all the privileges of Associate Members unless, as individuals they are qualified and have been approved as if they were applying as Full Members, in which case they shall have all the privileges of Full Members.

### Student Membership \$25

- Student Membership shall be a student pursuing a field related to explosives engineering and regularly enrolled in a post-secondary school or accredited two- or four-year college or university.
- A Student Member shall enjoy all the privileges of membership except a student cannot hold elected office, vote on officers or directors, or vote on changes to the Constitution.
